

## **AusFarm Nutrition Products**

*"Livestock Nutrition Solutions"*

### **Product Summary**

#### **StockGro Bloat Control 100\***

~ Liquid Feed Supplement for Cattle ~

**Product Code:** GB 04/1

#### **Purpose:**

An effective management tool used to assist in the control and onset of symptoms of pasture bloat caused by direct feeding at pasture.

#### **Product Appearance:**

**StockGro-Bloat Control 100** appears as a mid-to-dark brown semi-viscous liquid with a consistency similar to single cream and has a particularly bitter taste to the human palate.

#### **Target Animals:**

Feed **StockGro-Bloat Control 100** to cattle of all ages that have or are predisposed to conditions of frothy bloat caused by legumes and short lush spring pasture. The product works rapidly once consumed.

#### **Feeding Instructions:**

Offer **StockGro-Bloat Control 100** directly to cattle in polypropylene tubs in the paddock as a free access supplement. Use one 600l tub per 40 – 50 animals.

It is advisable to place the tubs of **StockGro-Bloat Control 100** either close to or far away from water depending on intake. Start off close to water or near a walk track and monitor intake.

**StockGro-Bloat Control 100** may also be mixed in to a TMR.

#### **Product Features:**

- Fortified with Teric PE62 (10%), an extremely effective surfactant (anti-foaming agent) that actively and rapidly breaks down stable foam caused by grazing legumes or short lush sprig pastures.
- Contains magnesium, calcium and other minerals and trace elements that are considered to be of benefit under bloat-predisposing conditions.

The product with Bovatec® offers 2 additional advantages:-

- Bovatec® may help to prevent the onset of bloat through its effect on rumen microbes and rumen fermentation.
- Bovatec® is registered for use in dairy and beef cattle and sheep. Its effect on growth, feed efficiency, milk production and animal health are well documented. It has a nil withdrawal period.

**Cost:** **StockGro-Bloat Control 100** costs, depending on bloat risk and the size of the animal, between 15 to 29 cents per head per day.

#### **Caution:**

- \* **Feed only to intended livestock!**
- \* **Do not allow access to horses!**
- \* **This is a specialty product. Do not feed to hungry or dehydrated livestock. Excessive consumption can be fatal.**
