*"Livestock Nutrition Solutions"*

### **Product Summary**

#### **StockMins – DeTox Premix**

~ Dry supplement for sheep and cattle ~

**Product Code:** MDT18

**Purpose:** a molassed granular supplement for sheep and cattle designed to control the effect of toxins in feeds. It also supplies a package of vitamins, trace elements and minerals to assist in the fortification of immune response and general micro-nutrient status. The product particularly focuses on forage toxins such as produced in paspalum (staggers), fescue toxicity, hairy panic, paterson's curse and moulds in feed.

**StockMins-DeTox** is able to reduce the effects of toxicosis in 3 distinct ways (bind, repair and elevate immunity) and can be conveniently fed free access or included in mixed rations.

**Product Appearance:**

**StockMins-DeTox** appears as a dry, granular, dust-controlled powder. It has a distinct yeasty smell with a slight molasses odour and is light brown in colour.

**Target Animals:**

Feed to cattle, sheep and goats when there is a threat of mycotoxins in feed and or plant toxins in forage.

**Product Description:**

**StockMins-DeTox:-**

- Contains an effective broad-spectrum toxin binder, that helps neutralize toxins.
- Contains bentonite, a known clay toxin binder.
- Contains a high level of zinc oxide, organic zinc and vitamin E to aid skin repair, elevate immune response and limit the effects of toxicosis in the body.
- Elemental sulphur is added to help mitigate the risks associated with the consumption of cyanogenic glycosides (prussic acid) produced by various plants.
- Added molybdenum to bind copper and reduce overload to the liver.
- Contains optimum balanced levels of essential vitamins, minerals and trace elements for peak animal performance, adapted to the special needs of grazing pasture with toxic weed burdens.
- Weather resistant to reduce rain damage and leaching.

**Cost:** At recommended consumption rates the daily cost for sheep is 4 cents per head per day and between 22-34 cents per head per day for cattle.

**Feeding Instructions:**

**Mixed Rations:-**

Mix thoroughly together with other ingredients to make a complete mixed ration at a rate of 25kg of **StockMins-DeTox** supplement per tonne of feed.
