Product Summary

StockMins–Brassica Boost

~ Granular feed supplement for sheep and cattle ~

Product Code: MBRB31

Purpose:

StockMins-Brassica Boost has been specially formulated to promote performance in primarily sheep, but also cattle, by supplying balanced levels of essential minerals, trace elements as well as other components to promote growth and help reduce the impact of common anti-nutrient factors found in Brassicas.

Product Appearance:

StockMins-Brassica Boost is a mid to dark brown, dust free, granular supplement with a dispersion of white flecks throughout. It is coated with molasses and oil and has a distinctive curry like smell.

Product Features:

- Contains a source of highly fermentable energy to help 'mop up' nitrates/nitrites in the rumen.
- Specific additives are included to increase protein utilisation that can assist in preventing nitrate poisoning.
- Toxin binders have been added to help manage toxins present in some Brassica varieties as well as boosting immunity and liver function.
- Fortified with Teric PE62 (2.5%), and extremely effective surfactant (anti-foaming agent) that actively and rapidly breaks down stable foam caused by grazing Brassicas.
- Contains Bovatec® at a level to promote growth, feed efficiency and milk production.
- Added Thiamine (B1) to offset conditions such as Polioencephalomalacia or Cerebrocortical necrosis (PEM/CCN).
- Increased levels of available iodine to help reduce the incidence of goitre.
- Supplies increased levels of vitamin E and selenium to promote immune response.
- High inclusion of vitamin A to counteract the antagonist effects of nitrates on vitamin A metabolism/absorption.
- Contains high levels of available magnesium and phosphorous to help balance mineral composition, therefore helping increase production potential.
- Includes high levels of trace elements and other key minerals, above RDI, to promote optimum health and production while grazing brassicas.
- Molassed to improve palatability, control dust and limit segregation.
- Weather resistant to reduce water damage and leaching.

Cost:

StockMins-Brassica Boost costs 6-8 cents/head/day for sheep and 20-30 cents/head/day for cattle at the recommended intake levels.

Production
10 Blaxland Road

Feeding Instructions:

Offer **StockMins-Brassica Boost**, free access, in tubs that allow water drainage. Limit intake to around 20g/head/day for sheep and 100g for cattle once animals are fully adapted. Use one tub for 50-60 head of sheep.

Caution:

- * **Feed only to intended livestock!**
- * **Do not allow access to horses!**
- * **This is a specialty product. Do not feed to hungry or dehydrated livestock. Excessive consumption can be fatal.**

Other Products in the StockMins Range:

StockMins-EweLamLac: a nutritional supplement designed to help **reduce pregnancy toxaemia** and stress related disease during lambing. For ewes and lambs 6 weeks pre- and post-lambing. It focuses on magnesium, calcium and phosphorus deficiencies as well as vitamin E for immune response.

- Magnesium (5.5%), phosphorous (4.8%), calcium (18%) and vitamin E (800mg/kg).

StockMins-EweLamLac HE: a higher energy, specifically designed **pre- and post-lambing supplement for multiple bearing ewes**. The addition of cracked corn boosts energy as a glucose precursor.

- Magnesium (5.2%), phosphorous (3.5%), calcium (13%), vitamin E (750mg/kg), corn (15%)

StockMins-Hoof n Horn: for the improvement of **hoof health and prevention of foot abscess** and other foot related diseases (Laminitis) in sheep and cattle.

- High levels of organic and inorganic zinc, biotin, calcium, vitamins A, D₃ and B₁, buffers, iodine and vitamin E at therapeutic levels.

StockMins-HiMag: a high magnesium complete sheep and cattle supplement, designed to enhance metabolism and prevent the onset of magnesium deficiency symptoms such as grass tetany.

- Magnesium (6%), phosphorous (2%), acidic salts, salt and buffers.

StockMins-Lamb Grower: a high protein supplement designed to accompany and balance **high grain feedlot diets** for growing and fattening lambs and sheep.

- Protein (25%), phosphorous 2.1%, vitamin E (750mg/kg), urea (6.5%), lasalocid (1200mg/kg), acid salts and buffers.

StockMins-Lamb Finisher: a complete supplement designed to **enhance the growth of rapidly growing lambs** on fresh pasture and lucerne including buffers to supplement some grain feeding.

- Protein (12%), phosphorous (2.2%), lasalocid (1000mg/kg) and buffers.

StockMins-HiPro: a high protein complete sheep and cattle supplement designed to accompany dry feeds and roughages to **increase fibre digestibility**, available energy and utilization of on farm forages.

- Protein (27%), phosphorous (2.1%), sulphur (1.2%), magnesium (2.1%) and vitamin E (750mg/kg).

StockMins-Detox: contains toxin binders that help **reduce the effect of toxins from noxious weeds**, such as hairy panic and caltrop in cattle and sheep.

- Elevated levels of zinc oxide, toxin binders and vitamin E. Also contains phosphorous, calcium trace elements and vitamin A and D₃.
