Product Summary

StockMins – Crop Grazer Plus

~ Green feed supplement for sheep and cattle ~

Product Code: MMB11

Purpose:

StockMins-Crop Grazer Plus is an economic and convenient complete supplement, designed to elevate performance of sheep or cattle on grazing cereals or lush green pasture by improving feed conversion efficiency, immune function, and energy metabolism.

Product Appearance:

StockMins-Crop Grazer Plus is a light coffee coloured, semi granular, dry feed supplement. It is coated with molasses and oil and has a sweet aniseed aroma.

Product Features:

StockMins-Crop Grazer Plus has been designed with a variety of magnesium sources to target the key sites of magnesium absorption in the rumen and omasum.

- Contains high levels of magnesium from 4 sources to help offset the antagonistic effects of high levels of potassium and crude protein commonly encountered in grazing cereals and green feed.
- Different magnesium sources have varying solubilities and release rates thereby giving a broader cover of magnesium uptake to enhance energy metabolism and aid in the prevention of grass tetany.
- Contains high levels of salt (sodium), calcium and phosphorus to balance the low levels of these minerals commonly experienced in grazing cereals or on pasture.
- Fortified with Bovatec® to further increase feed conversion efficiency and help control coccidiosis in young livestock.
- Contains optimum levels of essential minerals and trace elements necessary for optimum growth and performance on crop or at pasture.
- Molassed, oiled and granular to control dust and product losses, limit segregation in mixed feeds and reduce separation.
- Weather resistant to reduce rain damage and leaching

Cost:

StockMins-Crop Grazer Plus costs approximately 5 cents (sheep) and 19-28 cents (cattle) per head per day at recommended intakes.

Feeding Instructions:

Free Access Feeding:- Offer **StockMins-Crop Grazer Plus** free access in tubs limiting intake to 20-30g/head/day for sheep and 100-150g/head/day for cattle. Use one tub for 50-60 sheep or 20-30 cattle.

Mixed Rations:- Mix 50kg per tonne of air dried feed ingredients in a TMR.

Caution:

- * Feed only to livestock intended.
- * Ensure stock have adequate access to feed and water to avoid excessive consumption.
