

Product Summary

StockMins – HiMag

~ Dry supplement for sheep and cattle ~

Product Code: MM03

Purpose:

StockMins-HiMag is an economic and convenient complete supplement, rich in magnesium, designed to be fed to sheep or cattle as a preventative measure for magnesium deficiency, grass tetany and other nutritional deficiencies associated with fresh pasture and grazed cereal crops.

Product Appearance:

StockMins-HiMag is a light coffee coloured semi granular, dry feed supplement. It is coated with molasses and oil and has a sweet molasses aroma.

Product Features:

StockMins-HiMag has been designed with a variety of magnesium sources to target the key sites of magnesium absorption in the rumen, omasum and small intestine.

- Contains high levels of magnesium from 4 sources to offset the antagonistic effects of high levels of potassium and crude protein commonly encountered in grazing cereals and green feed.
- Different magnesium sources have varying solubilities and release rates thereby giving a broader cover of magnesium uptake to enhance energy metabolism and aid in the prevention of grass tetany.
- Contains high levels of salt (sodium), calcium and phosphorus to balance the low levels of these minerals commonly experienced in grazing cereals.
- Contains optimum levels of essential minerals and trace elements necessary for optimum growth and performance on crop or at pasture.
- Molassed, oiled and granular to control dust and product losses, limit segregation in mixed feeds and reduce separation.
- Weather resistant to reduce rain damage and leaching

Cost:

StockMins-HiMag costs approximately 4.2 cents for sheep and 20 cents for cattle per head per day at recommended intakes.

Feeding Instructions:

Mixed Rations:- Mix 50kg per tonne of air dried feed ingredients in a TMR.

Free Access Feeding:- Offer **StockMins – HiMag** free access in tubs limiting intake to 20-30g/head/day for sheep and 100-150g/head/day for cattle. Use one tub for 50-60 sheep or 20-30 cows.

** For best results in Cattle, StockGro - HiMag liquid feed supplement is recommended.*

Caution: Only feed to livestock intended.
