*"Livestock Nutrition Solutions"*

### **Product Summary**

#### **StockMins - HiPro**

~ Dry supplement for sheep and cattle ~

**Product Code:** MH01

**Purpose:**

**StockMins-HiPro** is a high protein (27% CP) supplement designed to be fed with dry feed and roughages to elevate the fibre digestibility, available energy and utilisation of farm-produced forages. It offers elevated levels of the major minerals, essential trace elements and vitamins A, D and E. **StockMins-HiPro** can be conveniently fed free-access or included in partial or total mixed rations.

**Product Appearance:**

**StockMins-HiPro** is a mid-brown granular, dust controlled, feed supplement with prills of urea evenly dispersed. It is coated with molasses and oil to minimise segregation whilst maintaining palatability. It has an organic yet sweet molasses smell.

**Product Features:**

- Provides 3 forms of rumen degradable protein including urea at (9.0%), equating to 27% crude protein.
- Comprises of balanced levels of available calcium, phosphorus, magnesium and salt for optimum performance on dry feed and stubbles.
- Contains a proprietary blend of key minerals and trace elements (including A, D & E), unique to ANP, to help promote optimum health and wellbeing.
- Includes sulphur to aid in the rumen's ability to digest feed and support wool quality.
- Molassed, oiled and granular to increase palatability, control dust, reduce product losses and limit segregation in mixed feeds.
- Weather resistant to reduce water damage and leaching

\*\* Bovatec® can be added for its promotion of certain beneficial rumen bacteria and assist in the control of coccidiosis in lambs and calves. This can result in enhanced rumen metabolism and a healthier gastro-intestinal tract that leads to better growth, feed efficiency and higher milk production.

**Cost:**

**StockMins-HiPro** costs around four cents for sheep, and 15 cents for cattle, per head per day at recommended intakes.

**Feeding Instructions:**

**Free Access Feeding:-** Offer **StockMins-HiPro** free access in 50-100 litre tubs limiting intake to around 25g/head/day for sheep and 100g/head/day for cattle once animals are fully adapted. Use one tub for 50 – 60 sheep or 20 – 30 cattle. Tubs should allow water to run off and away from the dry product after rain.

**Mixed Rations:-** Mix thoroughly in a complete mixed ration at a rate of 25kg of **StockMins-HiPro** per tonne of air dried feed.

**Caution: StockMins - HiPro contains 9% urea. Introduce gradually by mixing 50/50 with lime for around 5-7 days.**

**Feed only to intended livestock!**
