Product Summary

StockMins - Lamb Finisher

~ Dry supplement for fattening grazing lambs ~

Product Code: MLF10

Purpose:

StockMins–Lamb Finisher is a complete supplement designed to be used with rapidly growing lambs on fresh to maturing pasture.

Product Appearance:

StockMins–Lamb Finisher appears as a granular, dry, dust free premix. It is light brown in colour with a distinct sweet aroma of molasses.

Target Animals:

Feed to lambs that are being fattened on fresh or declining pastures. **StockMins-Lamb Finisher** is buffered to support low-level grain feeding.

Product Features:

- Contains two sources of protein in the form of Non-protein Nitrogen to elevate dietary protein and therefore support rapid liveweight lamb growth.
- Contains optimum balanced levels of essential vitamins, minerals and trace elements necessary for rapid growth on high quality to maturing pastures.
- Contains Bovatec® for improved feed conversion efficiency, general gut health and the control of coccidiosis in lambs.
- Fortified with mid to long-term acting buffers to help stabilize rumen pH and reduce the incidence of sub-clinical and clinical acidosis when supplementing low levels of grain.
- Supplies elevated levels of vitamin E (600mg/kg) to influence immune response, meat quality, and tissue growth and repair.
- Thiamine (vitamin B1) is added to help control Polioencephalomalacia (PEM) and other thiamine-related deficiencies associated with grain feeding.
- Partly weather resistant to reduce rain damage and leaching.
- Partly granular to reduce segregation.
- Molassed to control dust and product losses and limit separation in mixed grain feeds.

Cost:

StockMins–Lamb Finisher costs approximately 4.7 cents per head per day at recommended intakes.

Feeding Instructions:

Free Access Feeding:- Offer free access in troughs. Animals should not be hungry at the time of offering. Lambs will limit their own intake to around 20 – 30g/hd/day once they have adapted to the supplement. Use one tub for 50 – 60 lambs.
