

## Product Summary

### StockGro – Beef Feedlot 40

~ Liquid Feed Supplement for Cattle ~

**Product Code:** GF 07

**Purpose:**

To feed as a complete supplement in a mixed diet for cattle in feedlots.

**Product Appearance:**

**StockGro - Feedlot 40 + Bovatec®** is dark brown viscous liquid. It is slightly sour to the taste with clear molasses smell and taste characteristics

**Target Animals:**

Feed **StockGro – Feedlot 40** (with or without Bovatec ®) to cattle in feedlots or in paddocks on total mixed rations.

**Product Description:**

**StockGro - Feedlot 40** is a palatable molasses-based liquid feed supplement designed to be fed to feedlot cattle.

**StockGro - Feedlot 40** contains 32% crude protein from 3 sources thereby contributing 1.3% protein to the diet when mixed at the recommended rate of addition.

**StockGro - Feedlot 40** contains a balance of essential minerals, trace elements and vitamins A, D<sub>3</sub> & E to allow optimum feedlot performance and health. Bovatec®, as a non-hormonal growth promoter, is optional. When included it is present at the recommended level to increase feed conversion efficiency and economic returns (as per manufacturer's advice).

Vitamin E is present at a level that will have a positive effect on meat quality

Human food grade molasses provides the main vehicle to distribute nutrients evenly throughout the feed.

**StockGro – Feedlot 40** also contains acid salts, including ammonium sulphate to assist in the prevention of urinary calculi in steers and bulls.

**Cost:**

**StockGro – Feedlot 40** costs around \$40 per tonne of mixed feed

**Mixing Instructions:**

Mix 40kgs of **StockGro - Feedlot 40** thoroughly with each 1000kg of air dry feed equivalents.

**Caution: Do not allow access to horses if Bovatec is present!**

\*Available with or without Bovatec®
