Product Description:

StockGro - Lamb Feedlot 40 + Bovatec® is a palatable molasses-based liquid feed supplement designed to be used in TMR's for feedlot lambs and sheep.

StockGain – Lamb Feedlot 40 + Bovatec® contains 32% crude protein from 3 sources thereby contributing 1.3% added protein equivalents to the diet when included at 40kg/tonne of feed.

StockGro – Lamb Feedlot 40 + Bovatec® contains a balance of essential minerals and trace elements together with vitamins A, B₁, D₃ & E to allow optimum feedlot performance and health. Bovatec®, as a non-hormonal growth promoter is included at the recommended level to increase feed conversion efficiency and growth rate and control coccidiosis bringing added value and higher economic returns (as per manufacturer's advice).

Vitamin E is present at a level that will have a positive effect on meat quality and general animal health and thiamine is added to help prevent incidences of CCN.

StockGro – Lamb Feedlot 40 + Bovatec® also contains acid salts, including ammonium sulphate to assist in the prevention of urinary calculi in wethers.

Cost:

StockGro – Lamb Feedlot 40 + Bovatec® cost around \$30.00 per tonne of mixed feed.
