

StockMins-Lamb Feedlot

Feedlot Supplement for Rapidly Growing Lambs

Minerals, vitamins & trace elements for rapid growth

Long, mid & short acting buffers for high grain diets

Highly palatable loose-lick formulation for free-access feeding

Weatherproof, Safe & Easy to Use

High Specification Loose-Lick Feedlot Supplement

StockMins-Lamb Feedlot

StockMins-Lamb Feedlot is a complete feedlot supplement containing high concentrations of essential minerals, vitamins, trace elements and buffers. It is designed to accompany and balance high grain diets for rapidly growing lambs.

Controlled Consumption for Optimum Efficacy

StockMins-Lamb Feedlot has been specifically formulated with a balance of salt, buffers and flavours to attract lambs and control consumption. StockMins-Lamb Feedlot is designed to be fed at a rate of 25 to 50g/hd/day (free access) for lambs weighing 30 to 60kg. StockMins-Lamb Feedlot can also be added to a total ration at a rate of 25kg/tonne of mixed feed.

Weatherproof, Easy to Use and Economic

StockMins-Lamb Feedlot is fortified with weatherproofing ingredients to support tear and tip free-access feeding.

At a consumption rate equivalent to 25kg/tonne of feed (2.5%), StockMins-Lamb Feedlot is included at half the rate of most mineral concentrate feedlot pellets.

StockMins-Lamb Feedlot

Feedlot Supplement for Sheep

Product Code: MLF07

StockMins-Lamb Feedlot is an economic and convenient complete supplement designed to accompany and balance high grain feedlot diets for growing and fattening lambs or sheep.

Product Description

StockMins-Lamb Feedlot provides balanced levels of essential minerals, vitamins and trace elements to correct common deficiencies associated with growing lambs on high grain diets.

StockMins-Lamb Feedlot is fortified with short-, mid- and long-acting buffers to help stabilise rumen pH and reduce the incidence of subclinical and clinical acidosis.

The inclusion of ANP's proprietary blend of essential vitamins and trace elements assists in boosting immunity, energy metabolism and supports the uptake and utilisation of key minerals.

StockMins-Lamb Feedlot is also fortified with Bovatec to aid in the prevention and control of coccidiosis and improve liveweight gain and feed conversion efficiency.

The inclusion of molasses and oil enables the supplement to adhere to grain, while weatherproofing enables it to be fed ad-lib in tubs.

Product Appearance

StockMins-Lamb Feedlot is a semi-granular, dust-controlled premix. It contains coarse granules interspersed in a powdered matrix. It is light brown in colour with a distinct smell of ammonia.

Feeding Instructions

Free Access Feeding: Offer StockMins-Lamb Feedlot free access in well-draining tubs (20kg drum cut in half with slits down the side and holes in the bottom), allowing 1 tub per 50 to 60 sheep.

Animals will regulate their own intake in line with the amount of grain individually consumed. On a high grain diet, consumption should average 1g/kg lwt/day.

Mixed Rations: Mix 25kg (1 bag) per tonne of feed. Pour the contents of a bag into the auger while filling grain feeders to ensure an even distribution throughout the mix.

Caution

- Only feed to intended livestock
- Do not allow access to horses
- Read label for full direction for use

Typical Analysis (AFB)

Dry Matter	97%
Salt	31%
Calcium	14.3%
Sulphur	1.4%
Lasalocid	1000mg/kg
Vitamin A	225,920IU/kg
Vitamin D	47,040IU/kg
Vitamin E	750mg/kg
Vitamin B1	98mg/kg
ANP's proprietary blend of trace elements at balanced levels, including: Cobalt, Copper, Iodine, Selenium, Zinc, Manganese & Effective Buffers

READ SAFETY DIRECTIONS

StockMins – Lamb Feedlot Premix

A dry, molassed, weather resistant premix for feeding to lambs at pasture or in feedlots to boost mineral, vitamin and trace element levels in the diet and to promote growth. Bovatec® is included to improve liveweight gain and feed conversion efficiency.

Active Ingredient: Lasalocid sodium (as BOVATEC 20CC) 1000mg/kg.

Also Contains:

Calcium (14.3%), sodium (15.6%), sulphur (1.4%), buffers, trace elements, vitamins and anionic salts.

Net Weight: 25kg

Directions for Use

Restraints:

USE ONLY to supplement sheep.

Contraindications:

This product should not be fed to dogs, horses or other equids as this may be fatal.

NOT TO BE USED as a single dose treatment.

DO NOT USE in lactating ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

DO NOT feed more than 400mg/head/day of lasalocid sodium to lactating dairy cattle.

DO NOT feed with other ionophores e.g. monensin capsules, liquid or premix.

Reduced daily gain may result at 5 times and mortality from 15 times maximum recommended dose of lasalocid sodium.

Caution: This product contains selenium.

Excessive tissue levels of selenium are toxic. Care should be taken to avoid over-supplementation from this product and/or concurrent use of other products containing selenium. If blood selenium levels are high this product should not be used.

Additional Product Warning:

Do not feed this product to hungry and/or dehydrated livestock.

Access to clean, fresh water must be available at all times when product is in use.

Salt deficient livestock may overconsume. Talk to ANP before use.

Rates of administration:

Mix thoroughly together with other feed ingredients at a rate of 25kg (1 bag) per tonne of mixed feed.

Alternatively, offer free access in troughs allowing a consumption rate of 20g to 50g/hd/day in line with 2.5% of the total diet.

WITHHOLDING PERIODS: SHEEP: MEAT: Zero (0) days MILK: Zero (0) days

TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): An ESI has not been established for this product.

Note-observing the meat withholding period may not be sufficient to mitigate potential risks to export trade.

SAFETY DIRECTIONS: Harmful if swallowed. Will irritate the eyes and may irritate the skin. Avoid contact with eyes and skin. If product gets in eyes, wash out immediately with water. Wash hands after use. Additional information is listed in the Safety Data Sheet (SDS), available from AusFarm Nutrition Products.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126

ENVIRONMENTAL STATEMENT: DO NOT Contaminate dams rivers streams or other waterways with the product or used bag.

DISPOSAL: Shake container into medicated feed. Do not dispose of undiluted chemicals on-site.
Do not burn empty bags or product.

STORAGE: Store in a cool dry place. Keep bag tightly closed.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL

Condition of sale: AusFarm Nutrition Products accepts no responsibility for any consequences incurred from the use of this product outside of the instructions and recommendations outlined in the feeding instructions.
