

# BoviMag Plus

## Green Feed Supplement for Cattle

**Magnesium supplementation can reduce the risk of grass tetany**

**Effective mineral supplementation can help manage calving stress**

**Bovatec<sup>®</sup> can boost liveweight gain in grazing livestock by up to 14%**

## Support Pregnant, Lactating & Growing Cattle on Lush Green Feed

### BoviMag Plus

**BoviMag Plus** is a palatable, weatherproof, loose lick supplement designed to correct magnesium deficiencies, boost essential minerals, vitamins and trace elements, improve liveweight gain and aid in the prevention of coccidiosis in cattle grazing lush green feed or in situations where magnesium deficiency may limit performance.

### Minerals and Trace Elements

**BoviMag Plus** provides supplemented cattle with multiple sources of magnesium to satisfy daily requirements and drive rapid absorption from the rumen into the bloodstream. This can promptly correct magnesium deficiency and improve the mineral status of the targeted animals. **BoviMag Plus** is also fortified with essential minerals and trace elements to assist in correcting common deficiencies associated with livestock grazing green feed.

Correcting sodium and magnesium deficiency through effective direct supplementation is known to reduce the incidence of grass tetany, decrease stress and support significant improvements in liveweight gain.<sup>1,2,3</sup>

### Controlled Consumption for Optimum Efficacy

**BoviMag Plus** has been specifically formulated for cattle under green feed grazing conditions to consume an average of 150g to 200g/hd/day to achieve the desired dose and effect. Consumption may vary depending on pasture quality, quantity and the mineral status of target animals.

At the average targeted consumption rate of 150g, one bag of **BoviMag Plus** should supplement around 130 cows per day.

### Built with Bovatec

Along with a registered claim to control clinical signs of coccidiosis and reduce faecal shedding, Bovatec can generate improved liveweight gains and feed conversion efficiency in cattle grazing green feed and mixed rations.

# BoviMag Plus

## Green Feed Supplement for Cattle

**Product Code:** MBMP

**BoviMag Plus** is a weatherproof, granular, loose-lick supplement, designed to be fed to cattle at times of magnesium deficiency. As an effective magnesium supplement, it can aid in preventing grass tetany while improving liveweight gain and feed conversion efficiency in cattle grazing lush green feed.

### Product Description

**BoviMag Plus** provides balanced levels of essential minerals, vitamins and trace elements to correct common deficiencies associated with pregnant, lactating and growing cattle grazing lush green feed.

In particular, **BoviMag Plus** contains highly available magnesium to actively correct deficiencies through rapid absorption into the bloodstream while assisting with the mobilisation of calcium and phosphorous from skeletal reserves within the animal.

**BoviMag Plus** is also fortified with Bovatec to aid in the prevention and control of coccidiosis and improve liveweight gain and feed conversion efficiency.

### Product Appearance

**BoviMag Plus** is a mid brown, molasses, semi-granular feed supplement. It is salty to the taste and has a distinct sweet molasses smell.

### Feeding Instructions

Offer free-access allowing cattle to consume an average of 150 to 200g/hd/day. Once animals are fully adapted to the supplement, they will control their own intake. Use one tub (200L drum cut in half) for 25 cows or one trough (1000L IBC cut in half) for 50 cows and replenish supplement as necessary.

Can also be included in mixed feed at a rate that allows animals to receive at least 150g/hd/day of **BoviMag Plus**.

Tubs should have slits down the side to prevent the product from being submerged in water.

### Caution

- Only feed to intended livestock
- Do not allow access to horses
- Do not allow access to sheep

### Typical Analysis (AFB)

Dry Matter	92%
Crude Protein	2.0%
MER (Dry Matter)	2.6MJ/kg
Salt	31%
Magnesium	9.3%
Calcium	7.8%
Lasalocid	1000mg/kg
Vitamin D	30,000IU/kg
ANP's proprietary blend of trace elements at balanced levels, including: <b>Cobalt, Copper, Iodine, Selenium, Zinc and Manganese</b>

# BoviMag Plus

A dry weather-resistant medicated animal feed premix for cattle, designed to assist in correcting magnesium deficiency and improve liveweight gain and feed conversion efficiency in cattle grazing lush green feed.

**Active Ingredient:** Lasalocid sodium (as BOVATEC 20CC) 1000mg/kg.

**Also Contains:** Calcium (8%), Sodium (11%), Magnesium (9.5%) from 4 sources, Phosphorus (1%), and trace elements.

**Net Weight: 20kg**

## Directions for Use

### Restrictions:

- USE ONLY to supplement beef and dairy cattle.

### Contraindications:

- This product should not be fed to dogs, horses or other equids or sheep as this may be fatal.
- NOT TO BE USED as a single dose treatment.
- DO NOT USE in lactating ewes which are producing or may in the future produce milk that may be used or processed for human consumption.
- DO NOT feed more than 400mg/head/day of lasalocid sodium to lactating dairy cattle.
- DO NOT feed with other ionophores e.g. monensin capsules, liquid or premix.

Reduced daily gain may result at 5 times and mortality from 15 times maximum recommended dose of lasalocid sodium.

### Caution: This product contains selenium.

- Excessive tissue levels of selenium are toxic. Care should be taken to avoid over-supplementation from this product and/or concurrent use of other products containing selenium. If blood selenium levels are high, this product should not be used.

### Additional Product Warning:

- Do not feed this product to hungry and/or dehydrated livestock.
- Access to clean, fresh water must be available at all times when the product is in use.
- Salt-deficient livestock may overconsume. Talk to ANP before use.

### Rates of administration:

- Offer free access in troughs allowing a consumption rate of 150g to 200g/hd/day.
- Alternatively, mix thoroughly together with other feed ingredients to make a mixed ration. The inclusion rate of finished feed should deliver 150g/hd/day of BoviMag Plus to each animal daily.

**WITHHOLDING PERIODS: CATTLE: MEAT: Zero (0) days MILK: Zero (0) days**

**TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): An ESI has not been established for this product.**

**Note: Observing the meat withholding period may not be sufficient to mitigate potential risks to export trade.**

**SAFETY DIRECTIONS:** Harmful if swallowed. Will irritate the eyes and may irritate the skin. Avoid contact with eyes and skin. If product gets in eyes, wash out immediately with water. Wash hands after use. Additional information is listed in the Safety Data Sheet (SDS), available from AusFarm Nutrition Products.

**FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126**

**ENVIRONMENTAL STATEMENT:** DO NOT contaminate dams rivers streams or other waterways with the product or used bag.

**DISPOSAL:** Shake container into medicated feed. Do not dispose of undiluted chemicals on-site. Do not burn empty bags or product.

**STORAGE:** Store in a cool dry place. Keep bag tightly closed.

**Condition of sale:** AusFarm Nutrition Products accepts no responsibility for any consequences incurred from the use of this product outside of the instructions and recommendations outlined in the feeding instructions.
