BoviBloat Plus

A medicated dual-active animal feed premix for cattle, designed to assist in the control and onset of frothy bloat symptoms in cattle grazing green feed. Bovatec® is included to aid in the reduction of bloat in cattle on pasture.

Active Ingredients: Lasalocid Sodium (as Bovatec 20CC) 2700mg/kg and Teric PE62 (7.5%).

Also Contains: Salt (15.4%), Calcium (7%), Magnesium (6%) and Trace Elements.

Net Weight: 20kg

Directions for Use

Restraints:

DO NOT USE for improved liveweight gains or feed conversion efficiency in beef cattle destined for the EU market.

DO NOT USE in dairy cows for any purpose other than to prevent or control disease.

USE ONLY in feeds for beef and dairy cattle.

NOT TO BE USED as a single dose.

Contraindications:

This product should not be fed to dogs, horses or other equids or sheep as this may be fatal. This product should not be fed to lactating dairy cattle.

Care must be exercised when feeding concurrently with other antimicrobials.

Do not feed with other ionophores, e.g., monensin capsules, liquid or premix.

Rates of administration:

Offer free access in troughs allowing a consumption rate of 150g/hd/day (to provide 400mg of lasalocid/hd/day).

Alternatively, mix thoroughly together with other feed ingredients to make a mixed ration. The inclusion rate of finished feed should deliver 150g/hd/day of BoviBloat Plus to each animal daily. During high-risk periods, divide the dose in half and treat twice daily.

General Directions:

Provide medicated feed for the duration of lactation and do not exceed preferred use rate for BOVATEC in dairy cattle. Reduced daily gain may result at 5 times and mortality from 15 times maximum recommended dose.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

WITHHOLDING PERIODS: CATTLE: MEAT: Zero (0) days
MILK: Zero (0) days

TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): An ESI has not been established for this product.

Note: Observing the meat withholding period may not be sufficient to mitigate potential risks to export trade. Trade advice should be sought from AusFarm Nutrition Products on 0412 048 055 before using this product.

Beef Cattle: Under EUCAS rules (in a segregated system), accredited cattle producers are not permitted to use this product for label claims intended for growth promotion on animals destined for the European Union market. Please consult the EUCAS rules for usage and documentation requirements.

SAFETY DIRECTIONS: Harmful if swallowed. Will irritate the eyes and may irritate the skin. Avoid contact with eyes and skin. Do not inhale dust. When opening the bag and mixing into stockfeed, wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow-length PVC gloves, face shield or goggles and disposable dust mask covering mouth and nose. Wash hands after use. After each day's use, wash gloves, goggles and contaminated clothing. Additional information is listed in the Safety Data Sheet (SDS), available from AusFarm Nutrition Products.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126

ENVIRONMENTAL STATEMENT: BOVATEC 20CC premix is toxic to fish and some aquatic invertebrates. Do not contaminate dams, rivers, streams or other waterways with the chemical or used bag.

DISPOSAL: Shake container into medicated feed. Do not dispose of undiluted chemicals on-site. Break, shred, or puncture bag and deliver to an approved waste management facility. If an approved waste management facility is not available, bury the punctured or shredded bag 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty bags or product.

STORAGE: Store below 25°C (Air Conditioning) in a dry place. Protect from light. Keep bag tightly closed.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL
