

# BOVIPRO FLYBYE

Loose-lick dry feed supplement with fly control for cattle

SAY BYE TO  
FLIES THIS  
SUMMER

## Product Summary

### BoviPro-FlyBye

~ Loose-lick dry feed supplement with fly control for cattle ~

**Product Code: MBPF32**

#### **Purpose:**

**BovPro-FlyBye** is designed to be fed to cattle on dry pasture, stubbles, hay or straw to elevate fibre digestibility and the efficient utilisation of farm-produced forages. BoviPro-FlyBye delivers a direct and effective source of protein, minerals, vitamins and essential trace elements to the rumen and the animal and is ideal to assist in providing maintenance for cattle on dry feed.

#### **Product Features:**

- 35% crude protein, consisting of both rumen degradable protein, including urea (8%), and true protein.
- Effective starch to stimulate greater rumen microbial activity, increase nitrogen utilisation and improves fibre digestion.
- Balanced levels of available calcium (11%), phosphorus (2%), magnesium (1%) and salt (15%) for optimum performance on dry feed and stubbles.
- Essential trace elements (I, Se, Cu, Mo, Zn & Co) and vitamins A, D & E to help promote optimum health, wellbeing and support fertility.
- FlyBye to assist in reducing fly cover on cattle
- Sulphur at elevated levels to further stimulate rumen function and boost feed use efficiency.
- Flavoured, oiled and granular to increase palatability, control dust, reduce product losses and limit segregation in mixed feeds.
- Weather resistant to reduce water damage and leaching.

#### **Cost:**

**BoviPro-FlyBye** costs approximately a 49 to 58 cents/hd/day at recommended intakes.

#### **Feeding Instructions:**

**Free Access Feeding:** Offer **BoviPro-FlyBye** free access in tubs limiting intake to 250 to 300g/head/day. Use one tub (e.g. 200L drum with the middle cut out of it) for 20 to 30 cattle.

**BoviPro-FlyBye** is partially weatherproof. It is advisable to prevent rain from affecting the product where possible. Where rainwater is unavoidable, use tubs with slits down the side and a few holes in the bottom to let rainwater drain out. **Consumption may be reduced if product is wet.**

#### **Caution:**

- **Feed only to livestock intended.**
- **Do not allow access to horses.**
- **Do not feed to sheep.**
- **Introduce gradually and monitor intakes until intake stability is achieved.**
