Product Summary

BoviFlyBye

~ Supplement for Cattle Grazing Green Feed ~

Product Code: MBGF32

Purpose:

BoviFlyBye is a specially formulated granular supplement that is designed to aid in reducing fly pressure on cattle while providing essential minerals, vitamins and trace elements at levels to support green feed grazing. Flies can transmit diseases such as pinkeye within the herd and are commonly active when temperatures rise.

Product Appearance:

BoviFlyBye is a semi-granular, dust-free meal. It has a distinct garlic smell and is dark brown in colour.

Product Features:

- Garlic has been shown to reduce fly cover in cattle under differing levels of fly pressure.¹
- Balanced levels of calcium, phosphorus, magnesium and salt for optimum performance on green feed.
- Effective starch to stimulate greater rumen microbial activity, increase nitrogen utilisation and improve fibre digestion.
- Essential trace elements (I, Se, Cu, Mn, Mo, Zn, Co) and vitamins A, D & E to help support immunity, optimum health, fertility and wellbeing.
- Sulphur at elevated levels to further stimulate rumen function and boost feed use efficiency.²
- Flavoured, oiled and granular to increase palatability, control dust, reduce product losses and limit segregation in mixed feeds.
- Weatherproof and easy to use.

Feeding Instructions:

Free Access Feeding: Offer BoviFlyBye free access in tubs (1,000L shuttles or 200L drums cut in half), allowing consumption to average around 100 to 200g/hd/day*. Ensure that feed tubs have adequate drainage points so the product doesn't sit in water.

*Consumption of 100g/hd/day is ideal; however, as pastures mature, consumption will increase. When consumption rises to 200g/hd/day ANP recommend using BoviPro-FlyBye: Dry Feed Supplement for Cattle.

Mixed Rations: Mix thoroughly with other feed additives at an inclusion rate that allows an average intake level of 100g/hd/day.

Cost:

BoviFlyBye, at recommended daily intake levels, costs around 28 to 48 cents/hd/day based on level of consumption.

Caution:

- **Feed only to livestock intended.**
- **Do not allow access to sheep, goats or horses.**

BoviFlyBye is formulated and manufactured by AusFarm Nutrition Products 0412 048 055.
